

MKBC 126 – Cu 1000 / 185 – B M O P H

Minimal creepage distance.

35...400 – Cu screen cross-section  
(Al 35...400 – Al screen cross-section  
Pb – Lead sheath)

M – Solid rod conductor

185...2000 – Conductor cross-section

Cu, Al – Conductor material

126, 145 – Maximum system voltage

MKBC – High voltage dry outdoor cable termination

Types of cable terminations:  
B – screw connector  
M – welding connection between  
conductor and termination connector  
O – Termination has optical fiber output  
P – Termination with surge arrester  
H – Termination without support
