

MKB 126 – Cu 1000 / 185 – B M O P H

Minimal creepage distance,
Creepage distance for standard
termination do not show:
2350 mm—for MKB 72.5
3460 mm—for MKB 126
3870 mm—for MKB 145
4480 mm—for MKB 170
6548 mm—for MKB 252

35...400 – Cu screen cross-section
(Al 35...400 – Al screen cross-section
Pb – Lead sheath)

M – Solid rod conductor

185...2500 – Conductor cross-section

Cu, Al – Conductor material

72.5, 126, 145, 252 – Maximum system voltage

MKB – High voltage outdoor cable termination

Types of cable terminations:
B—screw connector
M—welding connection between
conductor and termination connector
O—Termination has optical fiber output
P—Termination with porcelain insulator
H—Termination for armored cable
